PUBLIC NOTICE

Freetown 28th June, 2021

The attention of NaCOVERC has been drawn to a certain public notice circulating on social media, with the signature of Chairman Sheku Bangura and Spokesperson Solomon Jamiru fraudulently inserted. The material purports a range of recommendations made by NaCOVERC to the Presidential Task Force (including declaration of a state of emergency).

NaCOVERC has issued no such public notice, and urges the public to discountenance such shenanigans.

As and when a determination is made on any additional measures to curb the third wave of the pandemic, the public will be duly informed.
